US-09-981-124-19
; Sequence 19, Application US/09981124
; Patent No. US20020166144A1
; GENERAL IMPORMATION:
APPLICANT: Green, Allan
APPLICANT: Singh, Surinder
APPLICANT: Lenman, Marit
APPLICANT: Lenman, Marit
APPLICANT: Stymne, Sten
TITLE OF INVENTION: FATTY ACID EPOXYGENASE GENES FROM PLANTS AND USES
TITLE OF INVENTION: FATTY ACID METABOLISM
FILE REFERENCE: 26-98A
                                                                                                                                                                                                                                                                                                                                                                                                                                                                            1034
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   914
